This Agency is authorized to require this information under Section 4 and Title X of the Environmental Protection Act (415 ILCS 5/4, 5/39). Failure to disclose this information may result in: a civil penalty of not to exceed \$50,000 for the violation and an additional civil penalty of not to exceed \$10,000 for each day during which the violation continues (415 ILCS 5/42) and may also prevent this form from being processed and could result in your application being denied. This form has been approved by the Forms Management Center.

STATUS OF COMPLIANCE WITH PERMIT CONDITIONS
REPORT PERIOD MARCH 2009 TO MARCH 2010

Measurable Goals

PUBLIC EDUCATION AND OUTREACH

A-1 Research informational brochures to be made available at the Village Hall.

During the next reporting cycle the Village will make available information brochures.

A-3 The Village has researched water quality language to be on their web site.

During the next reporting cycle the Village will provide water quality language on their web site.

A-6 The Village has researched informational brochures and material to be included on their web site.

During the next reporting cycle the Village will provide informational brochures on their web site.

PUBLIC PARTICIPATION/INVOLVEMENT

B-5 & The Village has encouraged and cooperated with the following: Boy Scouts

B-6 As an Eagle Scout Project, A Boy Scout along with solicited help and assistance from the Village did a stream cleanup project along Goose Creek through the Crete Public Library property.

During the next reporting cycle the Village will cooperate with a church Youth Group to do clean up work along right-of-ways.

ILLICIT DISCHARGE DETECTION AND ELIMINATION

C-1 The Village is in the process of developing storm sewer maps. These maps show topography, storm sewer routing, discharge points and receiving streams.

During the next reporting cycle the Village will continue the preparation of storm sewer maps.

C-2 The Village researched a model Illicit Discharge and Connection Ordinance.

During the next reporting cycle the Village will begin editing the Ordinance.

CONSTRUCTION SITE RUNOFF CONTROL

- D-1 The Village required all projects and developments of one acre or more to obtain IEPA (NOI) ILRIO permits prior to any work commencing on site.

During the next reporting cycle the Village will continue to require development to obtain IEPA (NOI) ILRIO permits.

- D-4 The Village reviewed all development plans to ensure their compliance with the Will County Storm Water Management Ordinance and IEPA requirements.

During the next reporting cycle the Village will continue to review all development plans to ensure their compliance with IEPA requirements.

- D-6 The Village Public Works Department inspected all construction activities during this reporting period to assure the erosion control measures were in place and functioning.

During the next reporting cycle the Village will continue their inspections of all construction activities.

POST CONSTRUCTION RUNOFF CONTROL

- E-2 The Village enforced the Will County Storm Water Management Ordinance.

During the next reporting cycle the Village will continue to enforce the Will County Storm Water Management Ordinance.

- E-4 The Village Engineer reviewed site development plans and encouraged the use of BMPs such as stream & intermittent waterway preservation and the use of natural vegetation in detention facilities.

During the next reporting cycle the Village Engineer shall continue to review development plans and encourage the use of BMPs.

POLLUTION PREVENTION/GOOD HOUSEKEEPING

- F-1 The Public Works employees were instructed in the proper handling and disposal of waste oil and lubricants.

During the next reporting cycle the Village will hand out educational material on storm water pollutant discharges to public works employees and will initiate discussions on the same.

- F-2 The Village is still in the process of completing the storm sewer maps. These maps are an integral part of developing a Village wide program of inspections of streams, storm sewer outfalls and detention ponds. During this reporting period the Village has made inspections of various stream locations, outfalls and ponds.

During the next reporting cycle the Village will continue their inspections of random outfalls, and ponds.
